

Genuine Nissan Bullbar produced by TJM.

COMTATIBLE

2005 Bullbar. Was available for about 18 Months. Can be identified by black plastic infill panels between the headlight and bullbar. Also the end of the wings have a black plastic finisher that goes into the wheel arch area.
Bullbar Brackets on vehicle only 3mm material and will bend bar when completing side winch pull. Bullbar mounts are set back into the bar too far to allow a side winch pull.

NOT COMPATIBLE

50th Anniversary of the Simpson Desert Crossing commemorative bullbar

NOT COMPATIBLE

Genuine Nissan Bullbar produced by TJM. This bar replaced the 2005 bullbar and is the same as the first alloy bar with the addition of fog lights.

COMTATIBLE
